Lubri-Gas

Lubri-Gas is simply the best gasoline additive available. It decreases oil consumption, increases compression and mileage, eliminates sticky rings and valves, gives more power, better piston seal, longer engine life, reduced exhaust emissions, longer spark plug life, makes engines start quicker and idle smoother, extends time between

tune-ups and eliminates existing carbon deposits in valves. One case of Lubri-Gas [non-breakable gallon jug and handy reclosable quart bottle with measuring marks] treats 640 gallons of gas. You owe it to your classic boat [or car] to try a case of Lubri-Gas and see the results of the gas additive everyone is talking about.
