CHRIS CRAFT CORPORATION - POMPANO BEACH, FLA.

SERVICE DIVISION

PARTS LIST

November 1, 1963

PROPELLER WHEEL SPECIFICATIONS
(Latest Replacement Recommendation)
1946 thru 1956

NOTE: All single screw engines on this list use RH wheels. When boats have multiple engines the RH wheel number is given first and the LH wheel number second. In many cases the latest replacement recommendation shown will be different than the original equipment wheel.

Boat Size	Engine Make and Model			Wheel No.	Size

HULL PARTS DATA

November 1, 1963

PROPELLER WHEEL SPECIFICATIONS - 1957 thru 1960
(Latest Replacement Recommendation)

NOTE: All single screw engines listed use RH wheels. When boats have multiple engines, the RH wheel number is shown first and LH wheel number second.

Recommended replacement is often smaller in diameter or pitch than original due to differences in blade style. Resulting performance should be approximately the same.

Boat Size	Engine Make and Model		Wheel No.	Size
15' Cavalier Utility - V-15 Series before V-15-2000				
1957-59	Chris-Craft	A-60	606	11x11-1/2x1

CHRIS CRAFT CORPORATION

SERVICE DIVISION

HULL PARTS DATA
August 1, 1964

PROPELLER WHEEL SPECIFICATIONS - 1961 thru 1964
(Latest Replacement Recommendations)

Note: For improved performance in many cases the latest replacement recommendation shown will be different than the original equipment wheel.

The complete part number is listed. The first part of the number identifies the propeller wheel style as listed below.
12.12-00000 = T-33 Equi Poise
12.13-00000 = T-36 Chris Craft
12.16-00000 = Super Cup
12.17-00000 = Equi Quad, 4 Blade
The last four numerals of the number are stamped into the wheel hub.

The size of each propeller wheel is given by wheel diameter, blade pitch and shaft diameter in that order.

Abbreviations: RH or LH = Right or Left Hand rotation; CC = Chris Craft; Gr = Gray Marine; Chr = Chrysler; Int = Interceptor; GM = Gen. Mtrs. Diesel; Cat = Caterpillar Diesel

CHRIS CRAFT CORPORATION

SERVICE DIVISION

HULL PARTS DATA

June 1, 1965

PROPELLER WHEEL SPECIFICATIONS - 1965
(Latest Replacement Recommendations)

Note: For improved performance in many cases the latest replacement recommendation shown will be different than the original equipment wheel.

The complete part number is listed. The first part of the number identifies the propeller wheel style as listed below.
12.12-00000 = T-33 Equi Poise
12.13-00000 = T-36 Chris Craft
12.16-00000 = Super Cup
12.17-00000 = Equi Quad, 4 Blade
The last four numerals of the number are stamped into the wheel hub.

The size of each propeller wheel is given by wheel diameter, blade pitch and shaft diameter in that order.

Abbreviations: RH or LH = Right or Left Hand Rotation
CC = Chris Craft
GMD = Gen. Mtrs. Diesel
CAT = Caterpillar Diesel
CUM = Cummins
