

Interlux Filler Stains

STAINCC is the familiar red mahogany color used on most Chris Craft boats.

STAINGAR is a browner mahogany color used on Gar Wood boats.

STAINCEN is a redder mahogany used on Century boats.

STAINNAT is an uncolored base used on king planks in many boats. [It appears gold after 8+ coats of varnish]

All of these stains should be thinned with Interlux 333 thinner to roughly the consistency of thick paint. One can of stain will do a 17 foot boat inside and out. We recommend lint free cotton rags for wiping down your boat after your filler stain dries.

STAINCC Interlux 573 Chris Craft Mahogany	\$23 pt
STAINGAR Interlux 42 Brown Mahogany	\$24 pt
STAINCEN Interlux 1579 Red Mahogany	\$24 pt
333 Interlux 333 Thinner	\$15 qt
RAGBOX 4 1/2 lb box of lint free cotton rags	\$17.95

Sandusky Filler Stains

Cordova is a golden yellow stain used on Chris Craft Continental, Capri, and Riviera king planks. Golden Walnut is a light honey brown stain used on many cabin cruisers. Dark Walnut is used on the decks of some pre-war boats.

STAINCOR Sandusky Cordova Stain	\$34qt
STAINGW Sandusky Golden Walnut Stain	\$34qt
STAINWAL Sandusky Dark Walnut Stain	\$34qt
STAINNAT Sandusky Natural Stain	\$34qt

Call for other Sandusky Filler Stains.

Pettit 1959 Copper Hard Racing Bronze Bottom Paint

When going down to bare wood, first apply a coat of Pettit Hard Racing Bronze thinned 25% with Pettit Brushing Thinner. Then follow up with two coats full strength of Pettit Hard Racing Bronze. Generally, 18 - 20 foot boats will use about one quart of bottom paint per coat and 23 foot boats will use about one and 1/2 quarts. Hard Racing Bronze won't stick to anti-fouling paint.

BRZRACE Pettit 1959 Hard Racing Bronze	\$57qt
BRZTHINNER Pettit Brushing Thinner	\$18qt

Interlux Y999 Anti-fouling Hard Bronze Bottom Paint

When going down to bare wood, first sand with 80 grit sandpaper. Thin first coat 10% with Interlux 216 Special Thinner. Sand old paint with 120 grit paper. This product will only stick to other coats of hard anti-fouling paint. It will not stick to soft anti-fouling or non anti-fouling paint. Always sand lightly between coats. Interlux discontinued the Y999 in quart cans. It is now only available in gallon cans.

BRZANTIGY999 Interlux Anti-fouling Bronze	\$152gal
216 Interlux 216 Special Thinner	\$14qt

Interlux #1 Premium Gloss White Yacht Enamel

Interlux 4279 Brightside Primer

Interlux Yacht Enamel has very good hiding characteristics. To ease brushing, thin sparingly [no more than 10 percent] with Interlux 333 thinner. Use Interlux 4279 Brightside Primer for your undercoat. It does not absorb a lot of moisture from the air like other primers and can be used over either wood or old paint to obtain a smoother surface. It also sands easier than enamel paint.

WHITEQT Interlux Gloss White quart	\$26
WHITEGAL Interlux Gloss White gallon	\$73
BRIGHTPRI Interlux Brightside Primer quart	\$29
BRIGHTPRIG Interlux Brightside Primer gallon	\$87

Pettit Clear Sealer

Apply one to two coats of Pettit Sealer with a bristle brush 3 to 4 days after applying fresh stain. Foam brushes can disturb your stain. Do not sand between sealer coats. Sealer can also be sprayed. Wear an organic respirator when applying sealer.

SEAL Pettit 2018 Clear Sealer quart	\$25
